

TARIFF PICTURES.

The Free-trade men are sure that the McKinley Tariff on trade in canned goods, in the year before the tariff passed, 1890, our exports of canned beef were valued at \$1,375,913.

In 1892 they aggregated \$7,856,454.

Another Free-trade theory demolished by collision with a Protection fact.

"HOME" CURRENCY.

St. Louis Globe Democrat.—What the wildest men mean by a "home currency" is bank notes that nobody will accept outside of the town where they are issued.

STUMPED.

St. Louis Globe Democrat.—Cleveland is a man of courage, but he hesitates to call a special session of Congress when it involves the risk of serious disaster to his party.

AGREABLE.

Boston Journal.—It is fairly hinted that the nomination of Josiah Quincy for the Governorship of Massachusetts would be eminently satisfactory to Secretary Graham.

COURT COMPLAINT.

New York Press.—The Louisiana sugar planters who voted the Democratic ticket will now depend upon Republican Congressmen to preserve the fostering bounty upon their product.

REDUCED PRICES.

New York Press.—There is a great deal of enlightened liberality in the suggestion that the price of admission to the World's Fair be reduced to twenty cents on certain Sundays. It is likewise only just, for only a part of the Exposition is in operation on Sundays.

NOT AND HUNGRY.

Boston Journal.—An illuminating idea of the hunger and thirst of the Democracy is given in the little circumstance that there were no less than 1,001 applicants for the twenty Indian agencies which President Cleveland, at the first law direct, has given to army officers.

A LESSON IN POLLY.

Chicago Inter Ocean.—The men that voted the coming Congress in the old Congress and that voted in Cleveland, Hoke Smith, Blount and Poinsett Dunn, are all having time to think it over and wonder at man's folly. Four years hence the lesson should bear fruit.

SCOOTING THE OFFICERS.

New York Press.—Joshua Quincy, the Mugwump Assistant Secretary of State, is startling all the Democrats in Washington by the fact he displays and the success he achieves in hunting officers for his friends. Your true Mugwump can beat any Jacksonian Democrat in grabbing the spoils.

COULD NOT KEEP HIM FROM OFFICE. Atlanta Constitution.—You're from Georgia?

"Yes, sir."

"What office are you after?"

GREAT IS SHAM!

Buffalo Express.—According to the new ruling a Republican Postmaster is held to have resigned when his four year term expires. So you will know hereafter what Bob Maxwell means when he assigns "resignation" as the cause of death of a fourth-class Nabby. What a beautiful thing is reform!

"OFFENSIVE PARTISANSHIP."

New York Press.—It is "offensive partisanship," "pernicious activity," etc., in the eyes of Roger Cleveland for a Republican Fourth-class Postmaster even to look quipped eye at politics, but Secretary Lamont can spend weeks in negotiations with Tammany Hall over spoils and not mind the displeasure of his master.

MUZZLING THE PRESS.

Boston Journal.—The Civil Service Chronicle has brought its list of subsidized Democratic editors down to date, and prints the names of fifty-five of them who have been appointed to office. It is not pretended that the list is complete, but it is sufficient to explain the silence of Democratic papers nowadays as to the danger to our liberties in the appointment of editors to office.

RUSIA GETS THE BEST OF IT.

New York Evening Post.—It is becoming more and more plain that a mistake has been made in concluding any treaty with Russia. The objection to it will differ in degree only, and not in kind, from the objection to subjecting our own citizens to the criminal jurisdiction of the local authorities in Turkey, China, Morocco and other barbarous countries.

NEPOTISM WAS NEVER SO BASTARD IN WASHINGTON.

How the Democratic Leaders in the Senate Use Their Authority to Enrich Relatives—Populist Peffer's Pull.

Most of the Democratic leaders, when the Senate was organized after Mr. Cleveland's inauguration, sought the "family fever," the contagion of appointing sons, daughters, nephews, nieces, sons-in-law and brothers-in-law to office. Nepotism was never so rampant in fact as it is to-day under an Administration pledged to economy and reform.

ANNE HAMILTON came all the way from Ireland to Newport to lose her sister's address. She found her, however, at the Presbyterian parsonage.

The Business Way!

The business way to advertise is to take space by the year, take space with your advertisements in making them attractive, and change them at least as often as once a month.

You may think there are seasons when you don't need to advertise.

We have never seen that time.

Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and converting the money in those things which are salable.

It is to be noted with satisfaction that Pope Leo, in his communication to Cardinal Gibbons on the subject of the education of Catholic children in the United States, urges the Public Schools, the clergy to strive to promote the welfare of their fellow-citizens and to prove the earnestness of their love for their country.

This is excellent advice, and should be followed, not by Catholic clergymen alone, but by Ministers of all denominations. It shows that Pope Leo understands both the value and wisdom of patriotism. Leo is an able statesman, as well as a pious priest, and he is devoted to the church of which he is the head, and his efforts to reconcile the precepts of the church with the fundamental principles of the American Republic deserve sympathetic consideration.

The Pope evidently recognizes the fact that the Public Schools are an American institution, and that, as a rule, they provide a fair practical education for American children. They do not interfere with religious training, and all children, whatever their religious faith, are treated alike. The Public Schools exercise a potent influence in bringing rich and poor, native and foreign born, together on a level of equality, and in preventing the erection of those barriers of class which, in the case of the American people, are the result of the old and original in the separate education of the young.

A GOOD CATCH.

Five Suspects Captured by the
Terre Haute Police.

They Are Believed to Belong to a
Desperate Gang of Burglars.

Two of the Prisoners are Women—On
Searching Their Home Money and
Valuable Found Concealed in
Various Places—House Identified.

TERRE HAUTE, Ind., June 27.—The police have probably turned up the gang of safe-burglars who so skillfully did the Buckeye Cash store job Sunday morning, and secured \$800 in cash. Two men and two women are under arrest, and they are no doubt professional crooks of reputation. They are not known in this locality. They gave the names of John Henry, F. F. Mings, Ethel Mings and Florence Kain. The Mings woman claims to be the wife of Mings. Two others, who gave the names of Mr. and Mrs. Coleman, escaped. They have been here since June 9. Among their effects were found nearly \$1,000 in cash, some of which was identified by the cashier of the Buckeye store, two loaded revolvers and a great amount of jewelry. There was also a hat that had a bullet hole through it. The police think they have discovered a dangerous gang of crooks. Late Monday night the police arrested John Kain, aged 45, as one of the gang. This makes the fifth arrest. He claims to be the husband of Florence Kain. They had no chance to meet, and their stories were evidently contradictory. All five prisoners are in jail in separate apartments. The police have been very busy recently, having been in Cincinnati and Toledo. Evidence multiplies that it is a desperate crew.

After the prisoners had been taken to police headquarters, the police made a searching search of their rooms, and a surprising condition of affairs was discovered. Money was found concealed in various parts of the room, and in many unlikely places. In Mrs. Mings' room the officers were looking in a box, of handkerchiefs in the same room. Mrs. Mings had about \$100 in silver, concealed in a dresser. Twenty-one bright watches fell to the floor when a lady's combination dresser was pushed aside.

Mings has his left hand wrapped in linen, and handles the money very carefully, as if it pained him greatly. He said he accidentally shot himself a few weeks ago on the cars. It is more than likely somebody did the shooting.

The woman who represented herself as Mrs. Mings is very prepossessing in appearance, and dressed stylishly.

The male prisoners stated they were from Terre Haute, and had come from San Francisco. He says he is from St. Paul, and Mrs. Mings claims to be from New York. The Kain woman says she lives at 210 Walnut street, Peoria, Ill.

The Cruise Dolphin.
WASHINGTON, June 27.—The cruiser Dolphin, which was taken as the president's yacht, is now being fitted out for the summer cruise. The Dolphin left New York for the possible use of the President and Mrs. Cleveland during the summer. It is expected that it will, however, that they will use it, neither is very fond of the sea. Secretary Herbert and his daughter, who are differently constituted, aboard the Dolphin late in July for a cruise up the New England coast with Bar Harbor as their objective point.

Transatlantic Anniversary of Gettysburg.
WASHINGTON, June 27.—Gen. Schofield has, with the approval of the secretary of war, arranged to have troops from Gettysburg on the first and third of July, on the occasion of the celebration for the thirtieth anniversary of the battle by the New York volunteers who participated in the famous engagement. The federal representation will be small, owing to the great expense attending a large movement of this kind.

Thrown From His Horse.
WASHINGTON, June 27.—Charles Hyman, a 19-year-old son of Representative Hyman, of Indianapolis, while out someplace riding Monday afternoon about 5 o'clock, was thrown from his horse and was knocked senseless by striking his head on the curb at the sidewalk. He was at once taken to the Emergency hospital, where it was found that his injuries were quite serious. After being treated at the hospital, he was removed to the home of his father.

An Order From the War Department.
WASHINGTON, June 27.—The war department has issued an order discontinuing the firing of the old ten-inch smooth bore guns at posts equipped with the modern 3-inch rifle, the purpose being to familiarize the men with the use of the modern weapon.

Gating Guns for the Army.
WASHINGTON, June 27.—The war department has made a contract with the Gatling Gun Co. of Buffalo, for twenty Gatling guns for field service, at a total cost of \$100,000.

Gold Hoovers in the Treasury.
WASHINGTON, June 27.—The gold reserve in the treasury Monday stood at \$95,110,000, an increase of \$500,000 since Saturday.

AN OBSERVATORY.

To Be Located at the Jesuit College, Minnesota, Philippines Islands.

WASHINGTON, June 27.—Don Jose Alegre, of Barcelona, Spain, has just given an order to a local manufacturer for the entire equipment of an observatory to be located at the Jesuit college at Manila, the capital of Luzon, one of the Philippine Islands.

The observatory and its instruments are the gift of the Spanish government, which will make an annual appropriation for its support. Don Jose Alegre, who is to be in charge of the institution, has just completed a two years' special course in astronomy, and is now in England en route to his home in Spain. While in this country, however, he became impressed with the superiority of American manufacturing in consequence gave an order to George S. Nagler, of this city, for the entire outfit of instruments. The most important of these is an equatorial telescope, which is now being constructed at the Saginaw establishment. It has a tube 30 feet in length and will weigh about 15 tons. One of the three sections which make up the base, was successfully cast Monday afternoon at the Dent Iron works in this city. For the purpose 7,000 pounds of iron were used. This class of telescopes there are only three larger in the United States.

THE CHOLERA.

Reports received from Europe indicate that the disease is becoming prevalent.

WASHINGTON, June 27.—Reports received by the United States marine hospital from consular and medical agents throughout Europe and Asia indicate that there is to some extent a decrease in the number of deaths resulting from cholera. The disease now prevails in France, principally at Lyons, Nimes, Montpellier, Geta, Lorient and Marseilles. Some time ago, but they were isolated, and since then none have been found.

The province of Glicilia, in Austria, has been ravaged by cholera during the past few months. The latest reports which have been received show that the disease is not increasing. It is said that the report of Dr. Kemper of Wisconsin, who this year to Europe some time ago to examine into the condition of that continent with special reference to the transmission of disease to this country will be submitted upon his arrival about the middle of the week.

To Establish a Medical School.
WASHINGTON, June 27.—It has been decided by the war department to establish a medical school in Washington, at which newly appointed army surgeons will be compelled to take a four-month post graduate course before entering upon their official duties. The school will be located in the army medical museum. Four officers will be selected from among the senior officers for directors. They will be chosen from the officers who are now in and near Washington, but they have not been decided upon.

President Cleveland's Coincidence.
Lowell, June 27.—The telegram of sympathy over the loss of the Victoria, officers and men sent by President Cleveland through Secretary of State Grover Cleveland and United States minister to Queen Victoria was forwarded to her majesty immediately upon receipt. The queen in reply to the informed Ambassador Hay that she was deeply touched by the message of the president of the United States.

The President's Outing.
WASHINGTON, June 27.—President Cleveland will probably leave Washington for his summer retreat at Buzzards Bay during the first half of July. He will remain at the white house for a week at least, and there is a likelihood that he will accept an invitation of Senator Camden to spend a few days at his estate in West Virginia in about two weeks.

Hits for Building Gun Boats.
WASHINGTON, June 27.—Hills will be opened at the navy department this week for building the three new gunboats authorized by the last congress, and for supplying gun forgings for these ships and several other new buildings, but whose armaments are not yet commended. Between \$2,000,000 and \$3,000,000 are involved in these contracts.

Contract Let.
WASHINGTON, June 27.—Gen. Flagler, chief of ordnance of the navy, has awarded a contract of \$300,000 between the Bethlehem Iron Co. and the Midvale Steel Co., both of Pennsylvania. The first-named firm will furnish the navy forgings for eight-gun boats and the other firm will provide forgings for ten and twelve-gun boats.

The Alliance at Calais.
WASHINGTON, June 27.—A cablegram was received at the navy department Monday announcing the arrival of the Alliance at Calais, Peru, where she was ordered when trouble was arising in that country. The dispatch says nothing of the state of affairs in Peru. The Alliance will remain there until further orders.

Doubt Drawing.

COLLAPSED.

Tremont House, Ft. Scott, Kan., In Ruins.

Nearly Seventy-Five Guests and Employees Buried in the Debris.

A Score Rescued From the Ruined Walls—Seven Victims Are Taken From the Debris—It Is Feared the Death List Will Reach Twenty.

Fort Scott, Kas., June 27.—At 9:30 o'clock, Monday morning, without a moment's warning, the Tremont house, a four-story brick structure, collapsed, burying nearly seventy-five people in the debris.

The body of a young woman has been recovered. Three men were taken out soon afterward, but their injuries are such that their deaths are expected in a few hours. The fire department and hundreds of citizens are at work among broken timbers, and are striving on in their efforts to rescue by cries and means of wounded people underneath the mass of debris.

The ground floor of the hotel was occupied by stores, many of which were filled with customers. It is not known how many people are beneath the ruins, but it is believed that the death list will reach over twenty.

When the east wall of the hotel fell the other three walls were left standing. The firemen rescued twenty-three persons by ladders who were clinging to the window sills of the upper floors. The work of rescue is greatly retarded by the dangerous condition of the remaining walls. Several persons, all seriously injured, have been dug out. Only one dead body has so far been recovered.

ECKELS' SAFEGUARDS.

The Controller of the Currency's Ideas of Bank Protection.

WASHINGTON, June 27.—In his annual report to congress Controller of the Currency Eckels will probably recommend some new legislation to make still greater safeguards around national banks and increase the safety of their business. One change that he is thinking of proposing is in regard to the amount of capital stock that must be paid in before a bank can begin business. Under the law as it stands at present a bank can begin business as soon as fifty per cent of the capital is paid in, and this makes it possible for a few men who can scrape together \$25,000 to start a national bank with a nominal capital of \$50,000, trusting to luck for the ability to pay the balance of the capital in ten per cent monthly installments as required by law. As a result of the present law some banks have been started with so little money behind them that they could not be had been permitted to organize at all, and in some instances have broken up before the deferred payments on the stock were all in. If the controller succeeds in having this amendment made the law will be stronger and at the same time carries out his plan of having more frequent and more thorough examinations made into the condition of the banks. It is probable the public will hear less of broken national banks than has been the case heretofore. Mr. Eckels believes that if a national bank is honestly organized and conducted with even ordinary care inside the lines laid down by the law it is practically impossible for it to fail.

Some One Was Trying to Escape.

COLEMAN, O., June 27.—Deputy Warden Playford found Monday afternoon that eighty feet of rope had been concealed over the annex at the penitentiary, a dozen lies under the dining room stairway, and 500 cigars near by. A suspicion exists that a plan had been laid for the escape of the condemned murderers in the annex, but Deputy Playford believes that the articles were planted by Charles Kling, a convict from Cleveland, who had made private arrangements to take leave of his fellow-prisoners.

See the Ripper Again.

LOXLEY, June 27.—The fate of the criminal who killed the Ripper was again called to mind by a murder that was committed in Rothertshire, a suburb a short distance to the southeast of London. The body of a woman belonging to the unfortunate class was found with the throat cut, the wound showing that the knife had been used from left to right, as was the case in all the murders committed by the ripper in the White Chapel district of London.

Mrs. Kline's Blotting.

ST. PAUL, Minn., June 27.—Mrs. Stoddard, called mass at St. Joseph's academy, Sunday. In his prayer, he said: "Bless this school, bless this school, and then turn his eyes toward Archbishop Ireland, he added: 'And the Fairbank and Stillwater schools particularly.'"

Coal Works Fail.

OKLAHOMA, O., June 27.—An authentic report reached here Monday morning that Carl's coal works of Carleton, this county, had made an assignment. Carl operated the largest coal works in the county, and employed 100 men. Assets, \$7,000; liabilities, \$50,000.

Mr. Kline Not a Candidate.

CLEVELAND, O., June 27.—John P. Kline, the Buffalo murderer, was interviewed published here Monday morning. Mr. Kline absolutely refused to allow his name to go before the legislative state convention to be held late for the gubernatorial nomination.

Last Houghton Welcome.

DUBLIN, June 27.—Lord Houghton, an Irishman, is making a tour of the west of Ireland. He has been heartily welcomed at every place he has visited.

Murderer Flashed Electroshock.

ATLANTA, Ga., June 27.—John P. Kline, the Buffalo murderer, was electrocuted at 12:44 Monday afternoon. The electrocution was a success.
